## WORK EXPERIENCE

### Software Developer

05/2023 - Present

#### Upraised

- Spearheaded the development of the blog section, implementing a config-driven UI and utilizing Sanity CMS. Increased monthly blog views by 40%, resulting in improved user engagement.
- Engaged in 50+ weekly standup meetings, receiving valuable mentorship and tasks from senior developers.
- Revamped UI for various pages along with the functionalities.
- Developed/Managed 10+ GraphQL API's, including documentation using mkdocs.
- Boosted global user experience by implementing over 10 new features and redesigning the Home, Pricing Page using React and Sanity.

### MERN Stack Intern

02/2022 – 06/2022

#### Devtown

- Constructed fully responsive web pages, integrating all required functionalities to ensure a seamless user experience.
- Managed server APIs, promptly resolving technical issues to optimize platform performance and reduce downtime by 20%.
- Utilized libraries like d3.js and react-chart.js to enhance dashboard data visualization, improving user experience.

## PROJECTS

**FOODMATA** : Tech-Stack: Express, Nodejs, React, Tailwind CSS.

[Demo link](#)

[Live link](#)

- Integrated Swiggy's API for real-world data, ensuring accurate and updated food information, resulting in a 15% improvement in data.
- Build a seamless cart feature using redux and local Storage for a user-friendly ordering experience, decreasing cart abandonment rate during testing by 25%.
- Implemented features like stripe payment gateway, live geolocation for fetching nearby restaurants dynamically.

**BLOGSPHERE** : Tech-Stack: Mongo Db, Express, Nodejs, Tailwind, React.

[Demo link](#)

[Live link](#)

- Achieved first load times of less than 800ms, ensuring swift access to content.
- Incorporated features like Google Sign-In using firebase, context API for state management and integrated MongoDB for efficient cloud storage.
- Leveraged JSON Web Tokens (JWT) for authorization and designed key features for updates, comments, and photo sharing using CRUD APIs. Resulted in a 20% boost in user engagement and a 30% increase in content interactions.

## EDUCATION

**Bachelor of Technology in Computer Science (2019 – 2023)**

(GPA: 8.4/10.0)

Dr. A.P.J Abdul Kalam Technical University, Lucknow

**Intermediate - CISCE Board (2017 – 2018)**

(Score: 84%)

Dr. Virendra Swaroop Memorial Public School, Kanpur

## SKILLS

**Technical Skills:** NodeJs, ReactJs(Proficient), MongoDB, ExpressJs, GraphQL, Typescript, C/C++ (Proficient), Python, JavaScript (Advanced), Slack, git/github, Firebase, Tailwind CSS, HTML, Material UI, RESTfull API, Bootstrap, Redux, Context API, Version control, AWS, Shell Scripting.

**Soft Skills:** Problem-Solving, Communication, Teamwork, Adaptability and Flexibility.

## ACHIEVEMENTS

- Achieved a global rank under 4000 in Leetcode Weekly Contest 397.
- Top swimmer for my college batch of 2023.
