SKILLS

MERN Stack Developer

1. NodeJs
2. ReactJs
3. MongoDB
4. ExpressJs

Programming Skills

5. C/C++ (Proficient)
6. Python
7. JavaScript (Advanced)
8. Data Structure & Algorithms

Interests/Hobbies
- Cricket
- Automobile(Cars)
- Travelling

PROJECTS

Blog-App - It's a Blogging website Jul-2023 - Aug-2023

- Designed key features for easy updates, comments, and photo sharing and Implemented role-based access for user control
- Set up a CI/CD pipeline for automated testing and deployment, ensuring code quality and reliability.
- Utilized global Redux store for streamlined state management and integrated MongoDB for efficient cloud storage.
- Link to project

SocioMedia - It's a social media website Feb-2023 - July-2023

- Spearheaded the development of the server-side logic using Node.js for a MERN stack social media platform.
- Features include posting status updates, photos, and liking posts.
- Utilized Redux for state management and MongoDB for the cloud backend.
- Link to project

Zwiggy - It's a social media website Jul-2023 - Aug-2023

- Integrated Swiggy API for real-world data, ensuring accurate and up-to-date food information.
- Developed a seamless cart feature for a user-friendly ordering experience.
- Implemented features for easy navigation, efficient search, and personalized food recommendations.
- Link to project

WORK EXPERIENCE

Full Stack Development Intern
- DevTown
- February 2023
- Assisted in solving technical doubts and provided mentorship to fellow students.
- Developed backend servers and resolved technical issues.

Algo++ Tutor (Data Structure & Algorithms)
- Coding Blocks
- March 2022
- Guided students in solving complex data structure problems.
- Facilitated logic building and problem-solving skills.

COURSES & CERTIFICATIOSNS
- Full Stack Development (DevTown) - February 2023
- Algo++ Data Structures & Algorithms (CodingBlocks) - March 2022
- Basic Python & Problem Solving (EICT-Academy IIT Kanpur) - June 2019
